

CITIZEN SPRING 2022 COLLECTION

CITIZEN

Eco-Drive® | Purposeful Power

The sustainable way to power your watch.
No batteries required.

At Citizen, quality time is our north star. In 1976, we pioneered the world's first light-powered watch, elevating quality craftsmanship to encompass a new standard – Eco-Drive technology. This sustainable, clean energy technology eliminates the need to replace watch batteries forever, honoring our planet and making it easier for citizens everywhere to enjoy quality of time.

For over four decades, we have pushed the boundaries of this proprietary award-winning technology, delivering an accessible range of timepieces with the substance citizens of the world demand. Today, Eco-Drive is the heartbeat of almost every Citizen watch, meaningfully marking time and lighting the way for a better world, with each and every timepiece.

HOW IT WORKS

Converts any light into energy

Energy is stored in a power cell

Keeps most watches working,
for at least 6 months, even if
stored in the dark

A romantic couple embracing in a city street. The woman, on the left, is wearing a dark fedora, a mustard-colored off-the-shoulder top, and a light-colored skirt. She is smiling and looking up at the man. The man, on the right, is wearing a light-colored blazer and has his arms around her. The background is a blurred city street with warm lighting.

15-Day Battery Life.

Quick access to the information for your convenience throughout the day.

See who's calling, read texts, see your emails and get your calendar alerts. Manage your notifications from the Citizen Connected app.

Customized with different dial options or personalize your watch dial with your favorite photo.

In the Citizen Connected app, you can choose from different dial options. Customize your display with the information you want to see at a glance. Each complication can be charged to provide you with steps, activity minutes, weather, date, alternate time zones and more.

Utilize the Citizen Connected app to manage your notifications, change your dials and get your fitness stats.

Keeping track of your health stats is easy. Monitor your fitness and meet your goals. Get weekly recaps of your fitness activity. Check out your calories burned. Track your sleep habits and recovery. You can even challenge a friend to a workout. Sync your data with Google fit or Apple Health and don't lose track of your progress.
